Next Edition

The 3/2021 issue of Elektor Industry magazine is our special edition for productronica, a leading trade fair for development and production of electronics, which takes place in Munich from November 16th to 19th. Background reports and news from all areas of electronics production come from companies, industry specialists, Elektor editors and freelance authors.

The Elektor Industry issue 3/2021 will be published on November 11th, 2021. Subject to change.
