

# The World Ethical Electronics Forum 2021

The pioneer edition of the World Ethical Electronics Forum (WEEF) is slated for November 18, 2021 in Munich, Germany. The live event will feature presentations and a discussion panel about some of the most important ethical issues facing the electronics industry. The content in this section will lay the foundation for debates and thoughtful discussions about key topics such as eco-friendly design, ethics in workplace culture, green electronics, and corporate social responsibility activities.
